Can I page remotely using One Number Service?

Justin Looper - 2023-11-13 - Comments (0) - One Number Service - FAQ

You can page remotely using the One Number Service by using the app or the web client.

This can be done by the following method:

- Make a call like normal, dialling:
    - Blick Pagers: 156xxxx - followed by your one number (123456)
- Accept the incoming call.
- Follow the prompts within the call, if any.

The system will respond with "Paging request Accepted" for Blick.
