Unified Communications & EBS Service Desk - Estates and Facilities

Will the Trust provide work mobile phones or charging cables to use ONS?

Jon Woods - 2021-04-09 - Comments (0) - One Number Service - FAQ

The Trust will not be providing mobile phones or charging cables to users of the One Number Service. The ONS app can be downloaded on any Android or iOS mobile device. Alternatively, if users choose not to download the app on their personal device, the Web Client can be used to direct calls to the users preferred contact number.
